

ETTER

CONTROLWORX

Custom UL-508A Control Panel Shop

ETTER Engineering builds custom control panels for all size jobs. Our capabilities include:

- UL 508A Certified Control Panel Shop
- Design & build both small and large custom panels for Commercial & Industrial applications
- Experienced in NEMA ratings, explosion-proof panels, VFD panels and more
- Extensive PLC programming experience
- We design to your specifications and build in our local facility

Why ETTER?

- **EXPERIENCE MATTERS** - We've been around since 1940 and have decades of panel building experience. We build hundreds of Control Panels each year!
- **INNOVATION MATTERS** - Our engineers and electrical team are always abreast of new technologies and innovations.
- **LOCATION MATTERS** - We are centrally located in Bristol, Connecticut with easy access to New England, New York, and New Jersey.
